

Competition Corner: Recognition-Claim Review

g12_u03_w12

Original fictional model challenges. No genetic test, sample, diagnosis, treatment, or personal-data activity is implied.

Challenge 21. Build a claim-boundary table for Card S: stated model relation, missing evidence, ethical boundary, and prohibited overclaim.

Challenge 22. Two fictional partners fit Card S. Write a conclusion that preserves ambiguity and proposes one additional fictional card while refusing real biological, medical, or identity claims.
